

Exercise01

December 5, 2018

1 Exercise 1

In [2]: run radioactive.py

Enter the initial number of particles: 10

In [3]: run radioactive.py

Enter the initial number of particles: 100

In [4]: run radioactive.py

Enter the initial number of particles: 1000

As the initial number of particles is increased, the accuracy of the simulation improves.
